LEUTASCH SPIRIT GORGE

... a fantastic walking experience through
the kingdom of the Gorge Spirit!

www.seefeld.com

THE LEGEND OF THE GORGE SPIRIT

Since the beginning of time, the Gorge Spirit has lived in the Spirit Gorge. He knows every stone, every bird and every tiny piece of moss. He looks after everything and everyone and settles any arguments. At least that is how it was. Recently, the Gorge Spirit has just not felt like it.

"I am the Gorge Spirit! I am made of the water that forms the rocks and shapes the valleys. Hard as ice, foaming like spray, I make sure that everything changes and yet stays the same as it always was."

GORGE SPIRIT

As his two friends, the nature spirits Flora and Einstein, heard this, they were dismayed. Help the two of them to convince the Gorge Spirit that he should stay with them because there is nowhere more beautiful than the Spirit Gorge.

"I am a creature that blooms and flourishes. I will wink at you from every tree and from every flower. I am so happy that you are here!"

FLORA

"I am made of stone from head to toe. Granite, phyllite and limestone. Even my heart is made of stone, but I love this gorge with a passion."

EINSTEIN

USEFUL INFORMATION

- by public transport: to "Geisterklamm" bus stop (your guest-card = your bus ticket)
- open: May-October
- not suitable throughout for buggies/dogs
- head for heights & sturdy footwear essential
- charges apply for parking (contactless payment possible)

THE LEUTASCH SPIRIT GORGE

Infernal water and ghostly pools, witches cauldrons and devil's water, a fantastical world of water and stone. Welcome to the kingdom of the Gorge Spirit and his friends!

"Everyone has heard of ghosts, goblins and gnomes. They live in the untouched natural world. But only a few have ever seen them...."

From summer 2023, the Spirit Gorge is sure to delight visitors of all ages with its new lay-out. There are four different routes, each offering a fun way to discover all about the gorge. There are exciting stories, lots of games and interesting facts, not to mention the whole experience of wandering between the rushing water and the picturesque forest backdrop.

LONG AND SHORT GORGE CIRCUITS

The long circuit takes you 3.2 km through the spectacular gorge and alongside the river, the Leutascher Ache. As you go, the spirits tell you about the gorge and its plants and animals. An easier option is the barrier-free 500 m circuit with views of the crystal-clear stream.

WATERFALL TRAIL AND ACCESS POINT TO MITTENWALD

An additional highlight is the waterfall trail. To get there, follow the connecting path to Mittenwald from the panorama bridge. On exiting the gorge by Mittenwald, there is a 200 m long waterfall trail that goes deep into the Leutasch Spirit Gorge and ends at a 23 m high waterfall (entrance fee). Sturdy footwear is recommended for this rather steep path. It is possible to return to the starting point by bus. The bus stop "Mittenwald Dekan-Karl-Platz" is about a 30-minute walk.

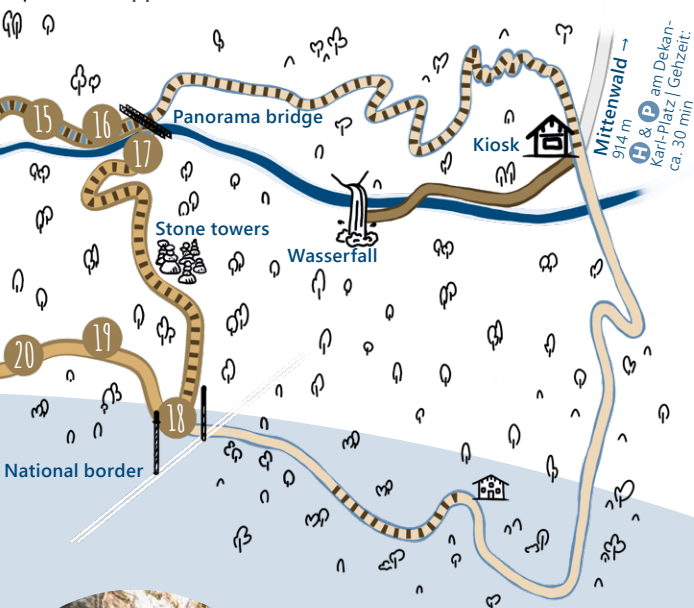

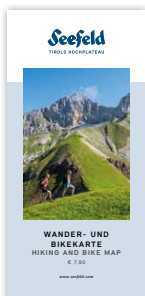

STATIONS:

1. Welcome
2. Water
3. Einstein
4. Flora
5. Forest scents
6. Alpine forest
7. Leutasch Gorge development
8. Water power
